

Hi,

My name is Bella chow and this is my first year at City College. I am planning to major in Marketing and saw Grpahic designing as a important aspect to the career.

I am using Trattatello Regular. Size 12 font to write the paragraph.

Raster Assignment

Hi,

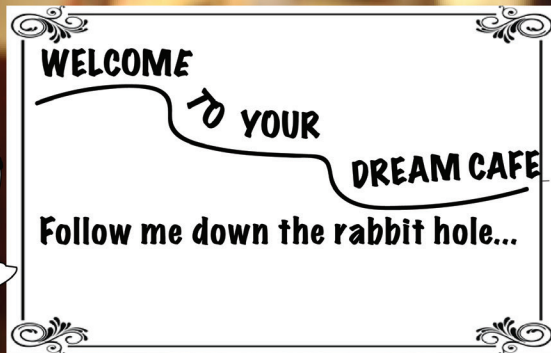

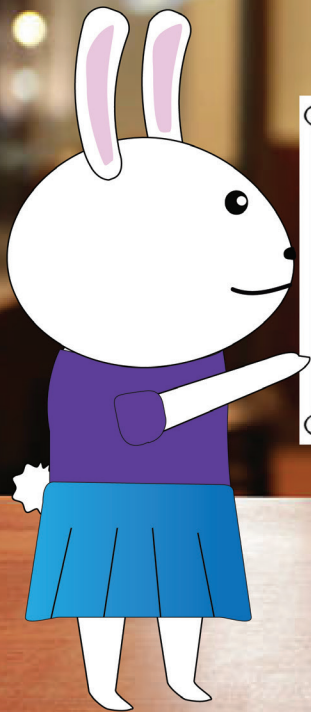

The picture in the front of the postcard was my first assignment in VMD 105. I chose a couple of favorite animals and put them together as if they are going on journey to find their new home. I wanted my "type on the film strip" so it looks like the film strip is blowing by.

Hi,

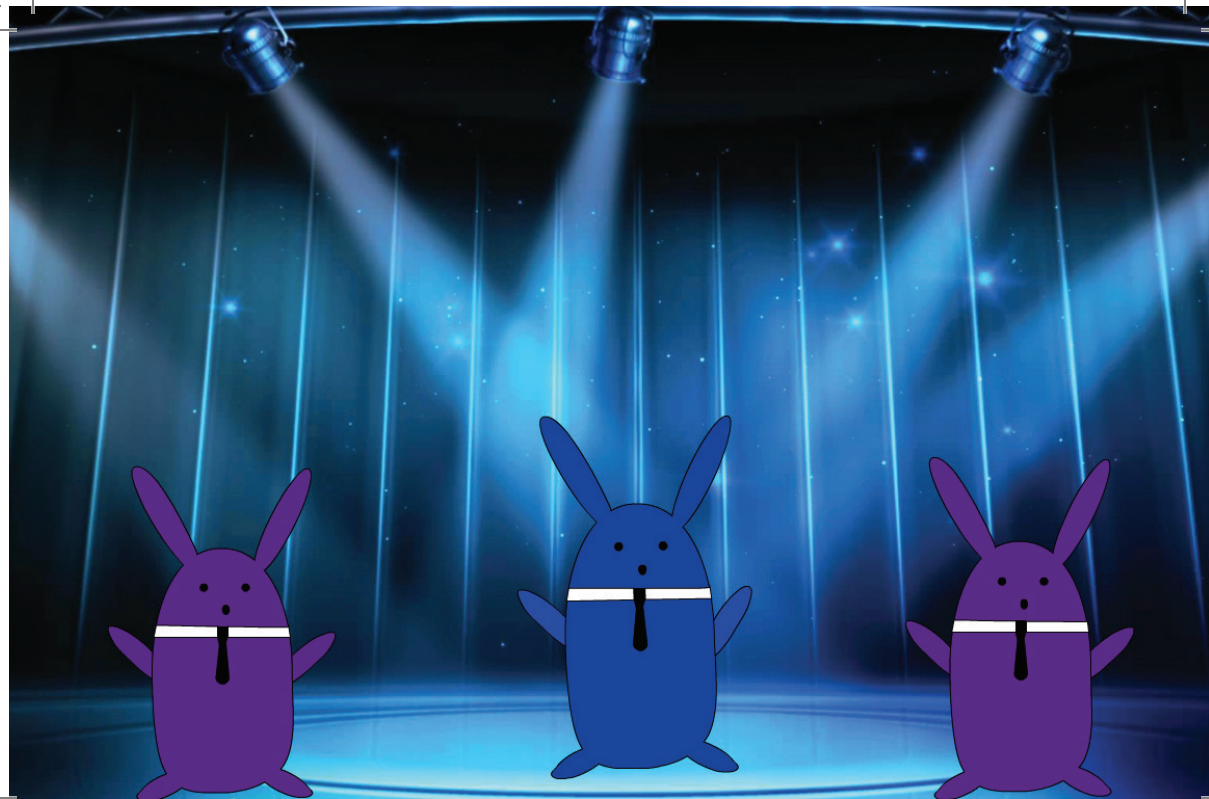

This was my second project in VMD 105. In my mind, I was able to draw a cuter and more decorated bunny, but due to time and me being not a great artist....this is the bunny we got. It suppose to be a bunny and her little friend holding a business card welcoming people to their new cafe.

Hi,

*The was my third project in VMD 105.
This short animation was suppose to show
3 bunnies that came to audition for a dance
performamance and failed. After they failed,
they hold adopt me signs, hoping someone would
take them home. This assisnment took me way
longer than expected like almost 10 hours for
each dance move.*
